

Why does **Dave McCormick** support bad stuff??

- Pardons for Capitol rioters who attacked police officers
- Abrupt cuts to promised medical treatment and research directly affecting Pittsburgh's people and economy
- Harassment of government workers who have dedicated their lives to federal service (including many veterans)
- The lie that Ukraine started the war that Russia started
- Letting Elon Musk and a guy named "Big Balls" shred programs like Social Security and Medicaid
- Deeply unqualified people as leaders, e.g., RFK who doesn't believe in vaccines as leader of HHS
- Bizarre tariffs and tariff threats that lower the stock market and increase everyday prices

Call Senator McCormick and tell him
this isn't okay!
